INDEPENDENT AUDITORS' REPORT

Board of Commissioners
Galveston County Drainage District #2
La Marque, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Galveston County Drainage District #2 ("the District") as of and for the year September 30, 2017 and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of Galveston County Drainage District #2 as of September 30, 2017, and the respective changes in the financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-10, budgetary comparison schedule on pages 32-33, and the required pension system supplementary information on pages 34-35, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Galveston County Drainage District #2's financial statements as a whole. The Texas Supplementary Information is presented for purposes of additional analysis and is not a required part of the financial statements. The Texas Supplementary Information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information and other supplementary information, as listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(This page intentionally left blank)

GALVESTON COUNTY DRAINAGE DISTRICT #2

MANAGEMENT'S DISCUSSION AND ANALYSIS

Using this Annual Report

Within this section of the financial report of Galveston County Drainage District #2 (the "District"), the District's Board of Commissioners provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended September 30, 2017. This analysis should be read in conjunction with the independent auditors' report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality, (TCEQ).

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$3,031,927.
- The District's net position increased \$203,315 during the year. Unrestricted net position is \$499,059.
- The District's total expenses were \$1,104,840 and revenues were \$1,278,532.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements, as presented in the special-purpose government format, combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. Details of this adjustment column are shown in Note 2 to the financial statements. The notes to the financial statements comprise the final part of the basic financial statements, providing all required disclosure to support the statements as presented. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using the accrual basis of accounting. The purpose of the statement of net position is to attempt to report all of the assets and liabilities owned by the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

GALVESTON COUNTY DRAINAGE DISTRICT #2
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The difference between the District's total assets, deferred outflows of resources, total liabilities and deferred inflows of resources is labeled as *net position*. Although the purpose of the District is not to accumulate net position, in general, as the amount increases, it may indicate that the financial position of the District is improving over time. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District's improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements established by external parties, governmental statutes or regulations. All of the District's funds are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. For this reason, there is an adjustment column on the statement of net position and the statement of revenues, expenditures and changes in fund balances. Details of this adjustment column are shown in Note 2 to the financial statements.

The District has two individual governmental funds, the general fund and special revenue fund, both of which are considered major funds.

The general fund is the chief operating fund of the district. At the end of the fiscal year, the fund balance of the general fund was \$289,865. The fund balance of the general fund decreased by \$419,346 this year.

The special revenue fund accounts for the District's impact fees which are received from developers wanting to develop property in a particular watershed area. These monies represent additional costs which will be incurred as a direct result of developing the area. At the end of the fiscal year, the fund balance of the special revenue fund was \$804,142. The fund balance of the special revenue fund increased by \$308,474 this year.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget.

GALVESTON COUNTY DRAINAGE DISTRICT #2
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget and information required by the Texas Commission on Environmental Quality.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$3,031,927 at the close of the most recent fiscal year.

A significant portion of the District's net position (57 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens within the District; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's overall financial position and operations for the past two years is summarized in the statement of net position as follows, based on information included in the government-wide financial statements:

	<u>2017</u>	<u>2016</u>
Current and other assets	\$ 1,482,580	\$ 1,442,017
Capital assets	1,728,726	1,297,723
Total assets	<u>3,211,306</u>	<u>2,739,740</u>
 Total deferred outflows of resources	 <u>358,485</u>	 <u>427,193</u>
 Current liabilities	 195,891	 47,305
Net Pension Liability	321,987	267,033
Total liabilities	<u>517,878</u>	<u>314,338</u>
 Total deferred inflows of resources	 <u>19,986</u>	 <u>23,983</u>
 Net position:		
Investment in capital assets	1,728,726	1,297,723
Restricted - special revenue funds	804,142	495,668
Unrestricted	499,059	1,035,221
Total net position	<u>\$ 3,031,927</u>	<u>\$ 2,828,612</u>

The remaining balance of unrestricted net position \$499,059 may be used to meet the District's ongoing obligations to citizens and creditors.

GALVESTON COUNTY DRAINAGE DISTRICT #2
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The District's net position increased by \$203,315 during the current fiscal year.

The District's statement of activities for the past two years is summarized as follows, based on information included in the government-wide financial statements:

	<u>2017</u>	<u>2016</u>
Revenues		
Property taxes, penalties and interest	\$ 967,927	\$ 941,379
Impact fees	308,474	113,696
Other revenues	2,131	-
Total revenues	<u>1,278,532</u>	<u>1,055,075</u>
Expenses		
Current service operations	825,084	751,161
Depreciation	108,236	118,726
Pension expense	171,520	129,692
Total expenses	<u>1,104,840</u>	<u>999,579</u>
Sale of capital assets	<u>29,623</u>	<u>-</u>
Change in net position	203,315	55,496
Net position, beginning of year	<u>2,828,612</u>	<u>2,773,116</u>
Net position, end of year	<u>\$ 3,031,927</u>	<u>\$ 2,828,612</u>

Financial Analysis of the District's Funds

As noted earlier, all of the District's funds are governmental funds. The focus of Galveston County Drainage District #2's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported fund balance \$1,094,007, a decrease of \$110,872 for the year. This amount of \$1,094,007 constitutes of amounts restricted for special revenue funds \$804,142 and unassigned fund balance \$289,865 which is available for spending at the District's discretion.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$289,865. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 20% of total general fund expenditures.

GALVESTON COUNTY DRAINAGE DISTRICT #2
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

General Fund Budgetary Highlights

The District anticipated a decrease in the fund balance of \$1,046,000. The actual net change in fund balance was a decrease of \$419,346.

Actual revenues were \$58,432 more than budgeted. Actual expenditures were \$533,235 lower than budgeted primarily due to decreased spending for capital outlay.

Capital Asset and Debt Administration

Capital Assets

The District's investment in capital assets for its governmental activities as of September 30, 2017, amounts to \$1,728,726 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and equipment. Capital assets, net of depreciation when applicable, held by the District at the end of the past two fiscal years are summarized as follows:

	<u>2017</u>	<u>2016</u>
Capital assets not being depreciated:		
Land and improvements	\$ 407,620	\$ 407,620
Capital assets being depreciated:		
Building and improvements	230,747	176,765
Land improvements	316,800	-
Equipment	1,421,919	1,379,644
Less accumulated depreciation	<u>(648,360)</u>	<u>(666,306)</u>
	<u>1,321,106</u>	<u>890,103</u>
Capital assets, net of accumulated depreciation	<u>\$ 1,728,726</u>	<u>\$ 1,297,723</u>

Additional information on the District's capital assets can be found in Note 4 on pages 24 of this report.

Debt

At September 30, 2017, the District did not have long-term debt outstanding.

Economic Factors and Next Year's Budget and Rates

Property Taxes

The District's property tax base increased approximately \$65 million for the 2016 tax year from \$1,421,584,301 to \$1,486,620,466. This increase was primarily due to increasing property values. The District has maintained its tax rate at \$0.0630 per \$100 of assessed value.

GALVESTON COUNTY DRAINAGE DISTRICT #2
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Budget

A comparison of next year's budget to current year actual amounts for the General and Special Revenue Funds is as follows:

	<u>2017 Actual</u>	<u>2018 Budget</u>
Total revenues	\$ 1,275,683	\$ 2,109,420
Total expenditures	<u>1,421,542</u>	<u>2,109,420</u>
Revenues over (under) expenditures	(145,859)	-
Other financing sources (uses)	<u>34,987</u>	<u>-</u>
Net change	(110,872)	-
Beginning fund balance	<u>1,204,879</u>	<u>1,094,007</u>
Ending fund balance	<u><u>\$ 1,094,007</u></u>	<u><u>\$ 1,094,007</u></u>

The District is not anticipating the collection of impact fees. Next year's budgeted expenditures are higher for all expenditure line items. The District anticipates the use of its unassigned fund balance to cover the budget deficit.

Request for Information

This financial report is designed to provide general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Bookkeeper, P.O. Box 624, La Marque, Texas 77568-0624.

GALVESTON COUNTY DRAINAGE DISTRICT #2

NOTES TO BASIC FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Galveston County Drainage District #2 (the “District”) conform with accounting principles generally accepted in the United States of America. The following is a summary of the most significant policies:

Creation

The Galveston County Drainage District No. 2 was created by a vote of the people in 1911 under the district provisions of Section 59 of Articles XVI of the Texas Constitution for the sole purpose of reclamation and drainage of its overflowed lands needing drainage and vested with all the rights, powers, privileges, and duties conferred and imposed by the general laws of the State of Texas. The District is also subject to the continuing supervision of the Texas Commission of Environmental Quality. The District’s primary activity is the control of flooding within its boundaries. As such, the District works in conjunction with local, state, federal and other county agencies to maintain existing flood control systems, construct additions and modifications and review additions and modifications proposed by others.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected three-member board. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions, as part of the District’s financial reporting entity. Based on these considerations, no other entities, organizations or functions have been included in the District’s financial reporting entity. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Consideration regarding the potential for inclusion of other entities, organizations or functions in the District’s financial reporting entity is based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District’s financial reporting entity status is that of a primary government are: that it has a separately elected governing body; it is legally separate; and, it is fiscally independent of other state and local governments. Although not considered significant in the District’s reporting entity evaluation, other prescribed criteria under generally accepted accounting principles include: considerations pertaining to organizations for which the primary government is financially accountable; and, considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the Statement of Net Position and the Statement of Activities.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Government-Wide and Fund Financial Statements (continued)

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two. All funds are considered major funds under financial reporting guidelines.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. The District uses a General Fund to account for its operations and Special Revenue Funds to account for the proceeds of specific revenue sources, expenditures of which are designated for special purposes by the District, State of Texas or United States Government. The principal source of revenue is property taxes. Expenditures include costs associated with the daily operations of the District.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

Governmental fund financial statements are organized on the basis of funds, each of which is considered to be a separate accounting entity. They use the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Property tax revenues are generally recognized in the period in which they were collected. Property taxes receivable at the end of the fiscal year are treated as unavailable revenues because they are not considered available to pay liabilities of the current period. The District levies taxes for operating purposes only. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, cash deposits, and short term investments with original maturities of three months or less from the date of acquisition.

Capital Assets

Capital assets, which include land, buildings and improvements, tools and heavy equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at the estimated fair market value at the date of donation.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Capital Assets (continued)

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Capital assets are depreciated over their remaining useful lives using the straight-line method as follows:

<u>Assets</u>	<u>Useful Life</u>
Building and improvements	50 years
Land improvements	50 years
Tools and equipment	10 years
Heavy equipment	20 years

In accordance with the provisions of Governmental Accounting Standards Board Statement No. 34 - *Basic Financial Statements Management's Discussion and Analysis - for State and Local Governments*, the District has elected not to report major general infrastructure assets retroactively.

Short-Term Interfund Receivables/Payables

During the course of operations, transactions occur between individual funds for specified purposes. These receivables and payables are classified as "due from other fund" or "due to other funds" on the combined fund balance sheets.

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Fund Equity

The District classifies all or portions of governmental fund balances which are legally segregated for specific future use or which do not represent available spendable resources and therefore not available for appropriation. Unassigned fund balance indicates the portion of fund balance which is available for appropriation in future periods. The restricted fund balances for governmental funds represent the amount that has been identified for specific purposes.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Beginning with fiscal year 2011, the District implemented GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable fund balance – amounts that are not in spendable form or are required to be maintained intact. As such, inventory and prepaid items, if applicable, are properly classified in the Governmental Funds Balance Sheet.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Equity (continued)

Restricted fund balance – amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed fund balance – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Commissioners). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint.

Assigned fund balance – amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Commissioners delegate the authority.

Unassigned fund balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds. The District has restricted and unassigned fund balances as of September 30, 2017.

Compensated Absences

District employees are paid by a prescribed formula for absences due to vacation. After one year of employment, vacation leave is earned as follows:

1 year of service	1 week
2-5 years of service	2 weeks
6-10 years of service	3 weeks
11-20 years of service	4 weeks
21 and over	5 weeks

Unless approved by the Board, the eligibility for such benefits lapses at year end, and pay in lieu of vacation is not given except in the case of termination. Accordingly, accumulated unpaid vacation pay is expensed in governmental funds when paid. At September 30, 2017, there were no material accumulated unpaid vacation benefits.

Sick Leave

Employees in permanent positions will be eligible for sick leave with full pay on the basis of one working day for each month of service subject to the following conditions:

- (a) Sick leave is not to be taken until the initial six months of service has been completed, but the sick leave balance at the end of the six months initial period will show credit retroactive to the date of original employment (six days of leave available).
- (b) Sick leave may be accumulated for a total of not more than ninety working days.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. At September 30, 2017, an allowance for uncollectible accounts totaled \$5,959. This allowance amount was for property taxes.

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Restricted Assets

Assets held in the special revenue funds are classified as restricted assets.

Impact fees represent monies which are received from developers wanting to develop property in a particular watershed area. These monies represent additional costs which will be incurred as a direct result of developing the area. These monies are restricted for use only for the purpose for which they are collected. Costs are incurred and paid out of the general fund. Once the costs have been incurred, the special revenue fund is entitled to reimburse the general fund by transferring amounts to the general fund.

For the year ended, September 30, 2017, no costs were incurred as a direct result of development in the area.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, are recorded as liabilities and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. The District did not have any debt outstanding as of September 30, 2017.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Long-Term Obligations (continued)

Deferred outflows and inflows of resources are reported in the statement of financial position as described below:

A *deferred outflow of resources* is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has one items that qualify for reporting in this category:

- Deferred outflows of resources for pension – Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumption; 3) differences between expected and actual actuarial experiences; and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

A deferred inflow of resources is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has two one items that qualifies for reporting in this category:

- Deferred inflows of resources for unavailable revenues – Reported only in the governmental funds balance sheet, the unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as in inflow of resources in the period that the amounts become available.
- Deferred inflows of resources for pension – Reported in the government-wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) difference between expected and actual actuarial experiences; and 3) changes in the district's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas County and District Retirement System (TCDRS) and additions to/deductions from TCERS's Fiduciary Net Position have been determined on the same basis as they are reported by TCERS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefits payments are refunds are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Implementation of New Standards

GASB Statement No. 77, *Tax Abatement Disclosures*, applies to financial reports of all state and local governmental entities, addresses the reduction of tax revenues resulting from an agreement between a government and an individual in which the government forgoes tax revenues and the individual promises to take specific action as a result of the agreement that contributes to the economic development to benefit the government or citizens of the government, and relates to agreements entered into by the reporting government or agreements entered into by other governments that reduce the reporting government's tax revenues.

For the year ended September 30, 2017, the District did not have any tax abatement agreements that require disclosures.

GASB Statement No. 82, *Pension Issues-An amendment of GASB Statements No. 67, No. 68 and No.73*, addresses the presentation of payroll-related measures in required supplementary information, selection of assumptions and the treatment of deviations from the guidance in an actuarial standard of practice for financial reporting purposes, and the classification of payments made by employers to satisfy employee contribution requirements.

Note 2 - Adjustment from Governmental to Government-Wide Basis

Reconciliation of the Government Fund Balance Sheet to the Statement of Net Position

Total fund balance, governmental funds	\$ 1,094,007
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.	1,728,726
Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds.	192,682
Net pension liability	(321,987)
Deferred outflow related to pension	358,485
Deferred inflow for pension	<u>(19,986)</u>
Total net position - governmental activities	<u><u>\$ 3,031,927</u></u>

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 2 - Adjustment from Governmental to Government-Wide Basis (continued)

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance
of the Governmental Funds to the Statement of Activities**

Net change in fund balances - total governmental funds		\$ (110,872)
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned. The difference is for property taxes and related penalties.		2,849
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of the assets are allocated over their estimated lives as depreciation expense.		
Capital outlay expenditures	\$ 544,603	
Depreciation expense	<u>(108,236)</u>	436,367
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities		51,855
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Pension expense		<u>(171,520)</u>
Governmental funds report proceeds from the sale of capital assets. However, in the Statement of Activities, the gain/loss on sale or disposition of capital assets is recorded.		
Gain/Loss on disposition of capital assets	<u>(5,364)</u>	<u>(5,364)</u>
Change in net position of governmental activities		<u><u>\$ 203,315</u></u>

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 3 - Cash and Investments

At September 30, 2017, cash and temporary investments consisted of the following:

	<u>General Fund</u>	<u>Special Revenue Funds</u>	<u>Totals</u>
Cash			
Petty cash	\$ 100	\$ -	\$ 100
Checking accounts	22,964	823,654	846,618
Money market account	427,498	-	427,498
Total Cash	<u>450,562</u>	<u>823,654</u>	<u>1,274,216</u>
Total Cash and Investments	<u>\$ 450,562</u>	<u>\$ 823,654</u>	<u>\$ 1,274,216</u>

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. State statutes require that all amounts deposited in financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third party custodian. The types of collateral to be pledged to secure District funds are specified in the District's investment policy and state statutes.

At September 30, 2017, the reported amount of the District's bank balance was \$1,261,515. The District's deposits at September 30, 2017, were secured by depository insurance or by collateral held by a third-party custodian in the District's name, and thus were not exposed to custodial credit risk.

Investments

The District is authorized by state statutes to invest in the following: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. The District further limits its investments to obligations of the U.S. Treasury or the State of Texas, certain U.S. Agencies, certificates of deposit, collateralized mortgage obligations, no-load money market mutual funds, certain municipal securities, commercial paper, repurchase agreements, or investment pools.

For fiscal year 2017, the District did not own any investments.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 4 - Capital Assets

Capital assets, which include land, buildings and equipment, are reported in the government-wide financial statements. Assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at the estimated fair market value at the date of donation. Depreciation is calculated using the straight-line method over the estimated useful lives.

A summary of changes in capital assets, for the year ended September 30, 2017, follows:

	Balance September 30, 2016	Additions	Deletions / Adjustments	Balance September 30, 2017
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 407,620	\$ -	\$ -	\$ 407,620
Total capital assets, not being depreciated	<u>407,620</u>	<u>-</u>	<u>-</u>	<u>407,620</u>
Capital assets, being depreciated:				
Building and improvements	176,765	53,982	-	230,747
Land improvements	-	316,800	-	316,800
Furniture and equipment	1,244,755	142,924	(109,171)	1,278,508
Vehicles	134,888	30,897	(22,374)	143,411
Total capital assets, being depreciated	<u>1,556,408</u>	<u>544,603</u>	<u>(131,545)</u>	<u>1,969,466</u>
Less accumulated depreciation for:				
Building and improvements	(79,953)	(3,106)	-	(83,059)
Land improvements	-	(52)	-	(52)
Furniture and equipment	(496,716)	(90,969)	89,927	(497,758)
Vehicles	(89,636)	(14,109)	36,254	(67,491)
Total accumulated depreciation	<u>(666,305)</u>	<u>(108,236)</u>	<u>126,181</u>	<u>(648,360)</u>
Total capital assets being depreciated, net	<u>890,103</u>	<u>436,367</u>	<u>(5,364)</u>	<u>1,321,106</u>
Governmental activities capital assets, net	<u>\$ 1,297,723</u>	<u>\$ 436,367</u>	<u>\$ (5,364)</u>	<u>\$ 1,728,726</u>

Depreciation expense amounted to \$108,236 in the current fiscal year.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 5 - Property Taxes

The District’s property taxes are levied annually in October on the basis of the Galveston Central Appraisal District’s assessed values as of January 1 of that calendar year. Appraised values are established by the Appraisal District at market value. The District’s property tax calendar is as follows:

Property Tax Calendar

October	Taxes are levied and are due upon receipt of the tax bill.
January 1	Tax lien attaches to properties within District.
February 1	Penalty and interest charged if taxes are not paid.

Property taxes are collected based on rates adopted in the year of the levy. For the current year, the District levied property taxes of \$0.063021 per \$100 of assessed value, which was allocated to maintenance and operations. The resulting tax levy was \$916,815 on the adjusted taxable value of \$1,486,620,466 for the 2016 tax year.

Net property taxes receivable, at September 30, 2017, includes penalty and interest receivable on delinquent accounts and an estimated allowance for uncollectible accounts as follows:

Current year taxes receivable	\$ 26,888
Prior years taxes receivable	82,223
Penalty and interest receivable	89,530
	<u>198,641</u>
Less allowance for uncollectibles	(5,959)
Net property taxes receivable	<u>\$ 192,682</u>

Note 6 - Defined Benefit Pension Plan

The District provides retirement, disability and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (“TCDRS”). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 624 nontraditional defined benefit pension plans. TCDRS, in the aggregate, issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the District’s Board of Commissioners (the “Board”), within the options available in the Texas state statutes governing TCDRS (“TCDRS Act”). Members can retire at ages 60 and above with 8 or more years of service, with 20 years of service regardless of age or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the plan to receive any District financed benefit. Vested members are eligible for a partial lump-sum payment option.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 6 - Defined Benefit Pension Plan (continued)

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest earned thereon, and District financed monetary credits. The level of these monetary credits is adopted by the District's Board within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the District's commitment to contribute. At retirement, death or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the District financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy

The District has elected the annually determined contribution rate (variable-rate) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the District based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the District is actuarially determined annually as a percentage of employee earnings subject to plan changes (e.g. for cost -of-living benefit increases) adopted by the District's governing body within the constraints of the TCDRS Act. The District contributed using the actuarially determined rate of 9.29% for October through December 2016, and 10.88% for January through September 2017.

The employee contribution rate is also a percentage of employee earnings subject to adjustment by the District's Board within the constraints of the TCDRS Act. The employee contribution rate was 7% during the current fiscal year.

If a plan has an adverse experience, the TCDRS Act has provisions which allow the employer to contribute a fixed supplemental contribution rate determined by the System's actuary above the regular rate for 25 years or to reduce benefits earned in the future.

Actuarial Assumptions

The actuarial assumptions that determined the total pension liability as of December 31, 2016 were based on the results of an actuarial experience study for the period January 1, 2009 – December 31, 2012, except where required to be different by GASB 68.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 6 - Retirement Plan (continued)

Actuarial Assumptions (continued)

The following are the key assumptions and methods applied to this measurement period:

Valuation Timing	Actuarially determined contribution rates are calculated on a calendar year basis as of December 31, two years prior to the end of the fiscal year in which the contributions are reported.
Actuarial Cost Method	Entry Age Normal
Amortization Method	
Recognition of economic/demographic gains or losses	Straight-Line amortization over Expected Working Life
Recognition of assumptions changes or inputs	Straight-Line amortization over Expected Working Life
Asset Valuation Method	
Smoothing period	5 years
Recognition method	Non-asymptotic
Corridor	None
Inflation	3.0%
Salary Increases	3.0%
Investment Rate of Return	8.10%
Cost-of-Living Adjustments	Cost-of-Living Adjustments for Galveston County Drainage District #2 are not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Turnover	New employees are assumed to replace any terminated members and have similar entry ages.
Mortality	The RP-2000 Active Employee Mortality Table for males with a two-year set-forward and the RP-2000 Active Employee Mortality Table for females with a four-year setback, both projected to 2014 with scale AA and then projected with 110% of the MP-2014 Ultimate scale after that.

Discount Rate

The discount rate used to measure the total pension liability was 8.10%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 6 - Retirement Plan (continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments is 8.10%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the systems target asset allocation as of December 31, 2016 are summarized below:

Asset Class	Benchmark	Target Allocation	Geometric Real Rate of Return (Expected minus Inflation)
US Equities	Dow Jones U.S. Total Stock Market Index	13.50%	4.70%

Note 6 - Retirement Plan (continued)

Sensitivity of the District's Share of the Net Pension Liability

The following presents the net pension liability of the District, calculated using the discount rate of 8.10%, as well as what the Galveston County Drainage District #2 net pension liability would be if it were calculated using the a discount rate that is 1% percentage point lower (7.10%) or 1% point higher (9.10%) than the current rate.

	1% Decrease 7.10%	Current Discount Rate 8.10%	1% Increase 9.10%
Total pension liability	\$ 5,015,223	\$ 4,433,551	\$ 3,942,695
Fiduciary net position	4,111,564	4,111,564	4,111,564
Net pension liability/(asset)	<u>\$ 903,659</u>	<u>\$ 321,987</u>	<u>\$ (168,869)</u>

Deferred Inflows/Outflows of Resources

For the year ended September 30, 2017, the District recognized pension expense of \$171,520.

As of September 30, 2017, the deferred inflows and outflows of resources are as follows:

	Deferred Inflows of Resources	Deferred Outflows of Resources
Differences between expected and actual experience	\$ 19,986	\$ 6,140
Changes of Assumptions	-	15,338
Net difference between projected and actual earnings	-	297,491
Contributions made subsequent to measurement date	-	39,516
	<u>\$ 19,986</u>	<u>\$ 358,485</u>

The \$39,516 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2018.

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions, excluding contributions made subsequent to the measurement date, will be recognized in pension expense as follows:

<u>Year ended December 31:</u>	
2017	\$ 101,423
2018	101,423
2019	89,987
2020	5,906
2021	(343)
Thereafter	587
Total	<u>\$ 298,983</u>

GALVESTON COUNTY DRAINAGE DISTRICT #2
NOTES TO BASIC FINANCIAL STATEMENTS (continued)

Note 7 - Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; personal injuries; and natural disasters. The risk of loss is covered by participation in Texas Municipal League (TML), an intergovernmental risk pool. This pool is a risk-sharing pool providing insurance coverage to more than 2,600 Texas municipalities and other governmental units. The risk pool is governed by a board of trustees that consists of 15 members, plus 3 ex-officio non-voting members, either elected or appointed in the manner specified by the TML bylaws. Each member of the board must be either an employee or official of the governing body of an employee member of the pool. The board controls the operations of the risk pool and has various powers and duties as specified in the bylaws. Audited financial information for each risk pool may be obtained from the Chief Financial Officer, Texas Municipal League Intergovernmental Risk Pool, PO Box 149194, Austin, TX 78714. The District has not had any significant reductions in insurance coverage and the amounts of insurance settlements have not exceeded insurance coverage for any of the last three years.

During the current fiscal year, the District paid out of its general fund net premiums of approximately \$14,129 for provisions of various liability, property, and casualty insurance. The District has deductibles ranging from \$500 to \$10,000 on various policies. TML will pay damages and claims subject to the limits of liability and stated deductibles in accordance with approved declarations of coverage. Amounts over the stated limits of liability become the responsibility and risk of the District. Claim liabilities are recorded when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. At year-end, the District did not have any significant probable claims.

The District also provides workers compensation insurance on its employees through TML. This policy covers claims up to the statutory limit. The District has no deductible for these claims. During the current fiscal year, the District contributed out of its general fund premiums of approximately \$12,180 for this coverage. The contributed amount is based on the District's estimated payroll applied to a classification rate (determined by TML), multiplied by the District's experience modifier and fund discount. These premiums are subject to change upon audit by TML. As of the current year-end, the District believed the amounts paid would not change significantly from the amounts recorded.

Both group health and life insurance coverage for eligible employees of the District are covered through commercial insurance. The District does not retain any risk of loss on health or life insurance.

Note 8 - Commitments and Contingencies

In the opinion of management and legal counsel, there is no known litigation pending against the District as of September 30, 2017.

Note 9 - Interfund Receivables, Payables and Transfers

Interfund balances consist of short term lending/borrowing arrangements that result primarily from payroll and fuel charges that are paid by general fund related to ditch improvement and are charged back to appropriate other fund. The due to due from amount below is related to Ditch 6 charges paid by general in fiscal year 2014.

	Interfund Receivables	Interfund Payables
General Fund	\$ 19,512	\$ -
Special Revenue Fund	-	19,512
Total - All Funds	<u>\$ 19,512</u>	<u>\$ 19,512</u>

GALVESTON COUNTY DRAINAGE DISTRICT #2

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

September 30, 2017

A. Legal Compliance - Budgets

The Board of Commissioners annually adopts a budget for the general fund. At least ten days before the beginning of the fiscal year, the Board of Commissioners shall approve the budget plan. One or more public hearings are conducted to obtain taxpayer comments. The budget is legally enacted prior to October 1. All annual appropriations lapse at fiscal year-end.

The appropriated budget is prepared by function. Transfers of appropriations between functions require the approval of the Board of Commissioners.

During the fiscal year, the payroll expenditures exceeded appropriations in the General Fund.
